June 19-21, 2017

7th WORKSHOP on KINETIC THEORY and APPLICATIONS

In honour of the 70th birthday of Alexander Bobylev

MAIN TOPICS:
- General Mathematical Problems of Classical Kinetic Theory
- Kinetic Theory & Hydrodynamics
- Numerical Methods & Applications to Rarefied Gas Dynamics

INVITED SPEAKERS:

K. Aoki, Taipei/Tainan City
L. Arkeryd, Göteborg
H. Babovsky, Ilmenau
C. Bardos, Paris
A. Bobylev, Moscow
S. Brull, Bordeaux
S. Caprino, Rome
P. Degond, London

F. Filbet, Toulouse
I. Gamba, Austin, Texas
F. Golse, Paris
M. Groppi, Parma
T.-P. Liu, Taipei
C. Negulescu, Toulouse
A. Nouri, Marseille
I. Potapenko, Moscow

M. Pulvirenti, Rome
S. Rjasanow, Saarbrücken
C. Saffirio, Zürich
G. Spiga, Parma
S. Takata, Kyoto
G. Toscani, Pavia
T. Yang, Hong Kong

PLACE:
The workshop will be held at Karlstad University. Karlstad is the main city in Värmland, a province of distinct natural beauty. It is located roughly half-way between Oslo and Stockholm. Directions to campus.

If you’re interested in participating at the workshop, please, contact Niclas Bernhoff

ORGANIZERS:
Niclas Bernhoff (niclas.bernhoff@kau.se)
Department of Mathematics and Computer Science,
Karlstad University, Sweden

Bernt Wennberg (wenenberg@chalmers.se)
Department of Mathematical Sciences
Chalmers University of Technology, Sweden
