

Legal traineeship exchange 2024

8 weeks with an International Swedish tech company from Uppsala (remote exchange possible)

Calling all legal students aspiring to start or work in a tech company in the future. Are you looking to gain experience and build your knowledge and understanding of not only small businesses but also the large corporations as a whole?

We are offering two placement positions that will allow you to learn by doing. The 8 weeks entail a wide variety of tasks to keep every day different. You will:

- Experience our legal documents which we use to sign contracts with larger international companies
- Help us to analyse risk assessments
- Help us draft communications in the event of legal assistance required from a team member
- Some of our clients are based in the UK, Netherlands and Norway so we might look at EU / international law too.
- Gain some insights in working with patent applications

Furthermore, as we are a small company you will be a valued member of the team with responsibilities and expectations. A normal working day is 8 hours from 9am to 5pm

If this sounds like the experience for you then email us at management@id24.org
