

A WPR APPLICATIONS

This list draws on a long-standing compilation curated by Carol Bacchi, previously circulated as a Word document and now maintained as a living Zotero library of references. The library is publicly accessible and administered by Carol Bacchi, Michaela Padden, Susan Goodwin and Iseult Séguin-Aubé. It is updated on an ongoing basis as new or newly identified applications become available, while the Word version is revised every six months. The Zotero library can be joined here:

https://www.zotero.org/groups/6477491/wpr_select_reference_list/library

References are organised by language and type of publication, including articles, books and book chapters, theses (MA and PhD), working papers, and reports. A separate section of PIA applications has also been included.

Publications in languages other than English are included where identified or brought to our attention; however, no systematic search is conducted to ensure comprehensive multilingual coverage.

If you see the need for corrections or are aware of applications that ought to be included, please contact Carol Bacchi at carol.bacchi@adelaide.edu.au.
